

U15 + U16 WEDNESDAY - DECEPTIVE POSSESSION PROGRESSION

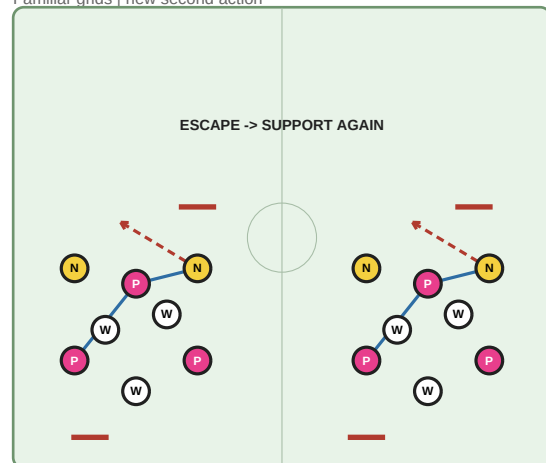

90 minutes | U15: 16 players | U16: 18 players | 35x30 max | Familiar structures with a harder second action

PROGRESSION: ESCAPE PRESSURE -> SUPPORT THE ESCAPE -> EXPLOIT THE SPACE

PINK	Team	WHITE	Opponent	YELLOW	Neutral	RED	target/box
------	------	-------	----------	--------	---------	-----	------------

0-12 | Escape + Support Activation

Familiar grids | new second action

Purpose: Keep Tuesday's escape behaviors, but require movement after the escape.

Set-up: U15: two 3v3+2 grids. U16: two 3v3+3 grids. Same gates/neutral structure as Tuesday.

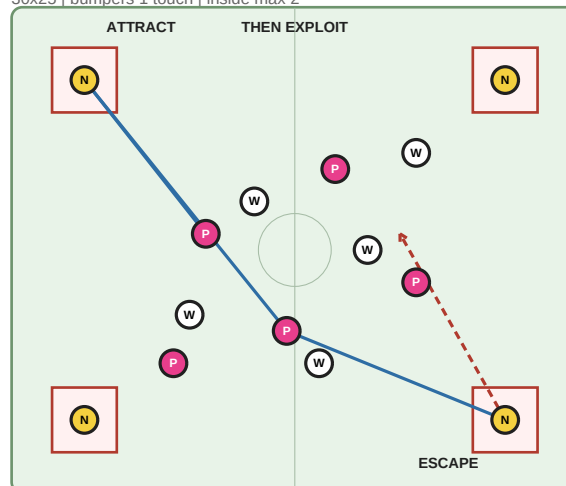

How it works: Score through a gate as Tuesday, but the action is not complete until a player moves to support the next pass. Ball must move again within 3 seconds.

Scoring / progression: 1 clean escape; 2 escape + successful next-support/third-player action.

Coach: Tuesday found the exit. Wednesday asks: what happens immediately after we get out? PASS -> MOVE -> BECOME USEFUL AGAIN.

12-32 | 5v5+4 Four-Corner: Escape + Exploit

30x25 | bumpers 1 touch | inside max 2

Purpose: Progress the familiar corner game from escaping pressure to exploiting the space created.

Set-up: 5v5 inside + four Yellow one-touch corner bumpers. U15: 2 rotate every 2-3 min. U16: 4 rotate every 2-3 min.

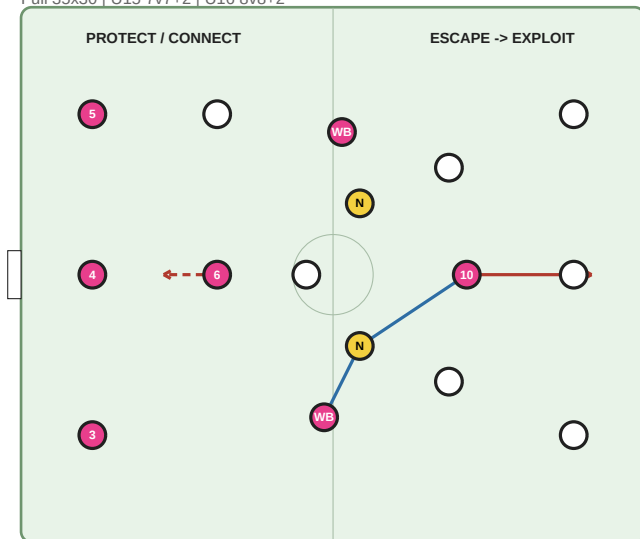

How it works: Attract pressure, use a bumper to escape, then immediately look for the next action away from recovering defenders. Far bumper is a reference, not an automatic pass.

Scoring / progression: 1 connect two different bumpers; 2 reach opposite-side bumper; 3 escape + next inside action breaks a defender/line.

Coach: Scan the far side before the bumper receives. Ask: We escaped - now who can hurt them?

32-57 | Directional Escape -> Exploit

Full 35x30 | U15 7v7+2 | U16 8v8+2

Purpose: Turn the escape into forward penetration before the opponent reorganizes.

Set-up: Yellow play with possession. Attack opposite goals. Preserve recognizable 1-3-5-2 relationships.

How it works: Circulate to attract pressure. Once pressure is escaped, recognize switch, line break, wingback release or forward combination.

Scoring / progression: 1 normal; 2 goal after escape + change of point; 3 escape followed by line-break/third-player action before reset.

Coach: Manipulate patiently; accelerate only after the opponent commits. Progression does not mean playing fast all the time.

COACHING LENS - ESCAPE + SUPPORT

U15 - 16

Do not over-coach the first presser. Focus on the player behind it and the 6 staying connected. In possession, after escaping, make the next action clean enough to avoid transition ping-pong.

U16 - 18

Demand movement after the pass: one underneath, one beside, one beyond. The player releasing the ball travels immediately to create the next angle.

COACHING LENS - FOUR-CORNER ESCAPE + EXPLOIT

U15 - 16

P1 pressures ball, P2 removes easiest bumper, P3 protects inside. If the bumper breaks the counterpress: GET INSIDE. See the far bumper early, but use the inside third-player solution if it is better.

U16 - 18

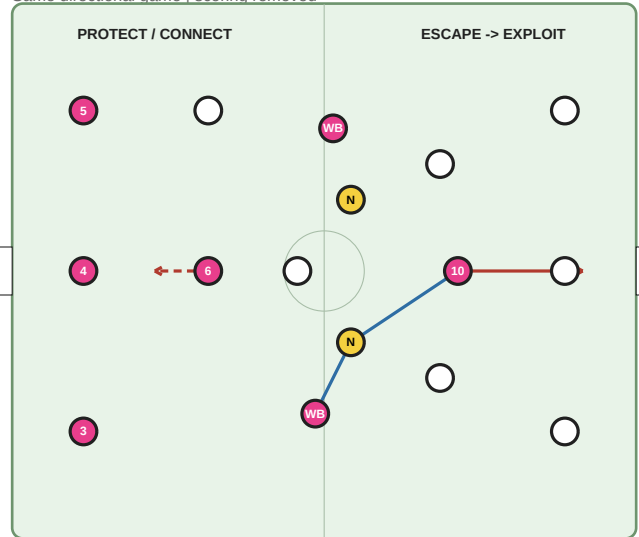

The one-touch bumper triggers coordinated movement inside. Who supports the return? Who moves beyond pressure? Who prepares the opposite side? PASS -> TRAVEL -> NEXT ANGLE.

U15 + U16 WEDNESDAY - PAGE 2

Tuesday taught the escape. Wednesday asks the players to recognize what the escape created and use it before the opponent reorganizes.

57-72 | Transition Decision Phase

Same directional game | scoring removed

Purpose: Add the match decision after regain without changing the picture.

Set-up: Keep 7v7+2 / 8v8+2. Remove bonus scoring.

How it works: On regain choose GO if open, CONNECT if forward is possible but unclear, SECURE if unstable. Then play normally.

Scoring / progression: Normal goals only.

Coach: Ask after the action: What told you to GO, CONNECT or SECURE?

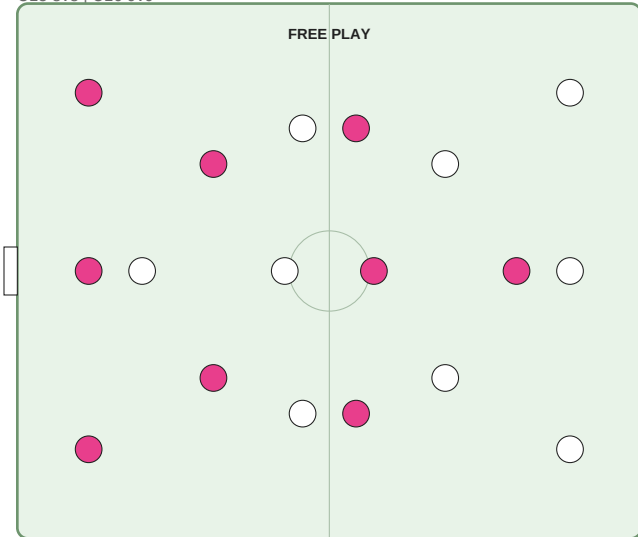

COACHING LENS - DIRECTIONAL + SHOWCASE

U15 - 16

Keep the 3+1 underneath. After regain: GO / CONNECT / SECURE. Once the opponent has been moved and the opening appears, be brave enough to penetrate.

72-88 | Showcase Game + 88-90 Message

U15 8v8 | U16 9v9

Purpose: Finish with normal football and see whether the progressed idea appears without rules.

Set-up: Position teams realistically. No neutrals or touch restrictions.

How it works: 8 minutes uninterrupted, one 45-60 sec midpoint message, final 8 minutes uninterrupted.

Scoring / progression: Normal goals only.

Coach: Midpoint: Do not keep possessing after you have created the opening. ATTRACT -> ESCAPE -> GO. Then let them play.

U16 - 18

Connect the escape to the next line: wingback + interior + forward. Once pressure is beaten, support must arrive before the opponent recovers. On loss: PRESSURE -> BLOCK -> PROTECT.
